

History

Main events

Artefacts

What is History?

History is when we learn about the past.

We learn about people, artefacts and events that have already happened.

We learn about chronology and timelines.

What is Chronology?

Chronology is the process of arranging events in their order of occurrence in time.

Beyond Living Memory

The Great Plague

1665 - 1666

Key vocabulary

Chronology	Arranging events in their order of occurrence in time.
Timeline	A display of a list of events in chronological order.
Events	Something that happens or takes place.
New	Not existing before.
Old	Belonging to the past.
Artefact	An object of cultural or historical interest.
Past	Gone by in time and no longer existing.
Present	Existing or occurring now.
Evidence	Available facts or information to prove that something is true.
Document	A piece of written matter.

History is everything that has already happened!

As well as learning about events that happened in the past, we can also find out our own family history. This helps us to find out who is in our family so that we can name them and label our own family tree.

In Living Memory

We were born!

2016-2017

Today!

2022-2023
